Subject index to Volume 16 (1985)

This index lists the keywords given on the first page of the papers.

A blood group system 297
A-O(S) and *H* blood group loci 307
α chain typing 193
α chain variants 239
albumin, serum 229
alcohol 51
—dehydrogenase 51
aldehyde dehydrogenase 51
alkaline phosphatases (AP) 205
alloantigens 175
allocation method 1
amino acid transport 157
antibody, lymphocytotoxic 85
antigen, leucocyte 175
antigens, feline blood group 77
antigens, lymphocyte 85
antigens, surface 135
β-globin gene cluster 35
behavioural responses 51
biochemical polymorphism 183
birth weight 229
blood group(s) 1, 13, 69, 93, 145, 235, 285
—antigens, feline 77
—, H 319
—loci, *A-O(S)* and *H* 307
—, S(A-O) 319
—system, A 297
—system, H 297
—system, M 165
Bos indicus 229
Bos taurus 229
bovine 193
—mastitis 165
C_4 65, 193
cats 77
cattle 85, 135
chimaeras 157
chimerism 235
complement 193
chromatography, reversed-phase 41
creatine kinase activity 319
Danish swine breeds, SLA in Swiss and 109
dehydrogenase, alcohol 51
dehydrogenase, aldehyde 51
densitometry, scanning 239
economic traits 229, 285
economical screening method 183
ELA 217
electrophoresis, starch gel 229
electrophoresis, two-dimensional 9
electrophoretic heterogeneity 205
ELY 217
enzyme systems, polymorphic 285
epistatic system, S 297
equine haemoglobins 239
feline blood group antigens 77
focusing, isoelectric 41, 183
gene cluster, β-globin 35
gene frequencies 93, 145
gene, halothane 265
gene order 307
genetic control 205
genetic locus 193
genetic linkage 13
GLO 243
glucosephosphate isomerase 149
goose 9
H blood group 319
H blood group loci, *A-O(S)* and 307
H blood group system 297
haemoglobin polymorphism 41
haemoglobins, equine 239
Hal genotypes 307
halothane gene 265
halothane sensitivity 285, 297, 307, 319
haplotypes 265
heterogeneity, electrophoretic 205
histocompatibility 217
—system, swine 109
homogeneity test 125
horse 61, 93, 145, 217
inbred strains, recombinant 51
inhibition studies 205
isoelectric focusing 41, 183, 239
leucocyte antigen 175
linkage 61, 265, 297
—, genetic 13
—group 307
loci, *A-O(S)* and *H* blood group 307
locus, genetic 193
lymphocyte(s) 77, 217
—antigens 85
lymphocytotoxic antibody 85
M blood group system 165
M system 69
major histocompatibility complex 125, 135

mastitis, bovine 165
maximum likelihood 1
meat quality 319
MHC 243
milk proteins 183
milk yield 229
miniature swine 243
mouse 51
new factor 69
penetrance 307
Pgd 297
Phi 297, 319
phosphogluconate dehydrogenase (,6-) 265, 297, 307
phosphohexose isomerase 265, 297, 307, 319
pig(s) 35, 69, 125, 175, 205, 235, 265, 285, 297, 307, 319
plasma proteins 9
plasminogen 61
Po2 297
polymorphic enzyme systems 285
polymorphism(s) 9, 149, 229
—, biochemical 183
—, haemoglobin 41
—, protein 93
—, restriction fragment length 35
postalbumin (2) 265, 297
potassium transport 157
protein polymorphisms 93
proteins, milk 183
proteins, plasma 9
quantitation 193, 239
rabbit 41
recombinant inbred strains 51
recombination rates 307
RFLP 65
restriction fragment length polymorphism 35
reversed-phase chromatography 41
S(A-O) blood group 319
S epistatic system 297
scanning densitometry 239
screening method, economical 183
segregation distortion 125
serology 109
serum albumin 229
sheep 13, 149, 157
SLA 65, 109, 125, 235, 243
— in Swiss and Danish swine breeds 109
starch gel electrophoresis 229
strains, recombinant inbred 51
surface antigens 135
swine breeds, SLA in Swiss and Danish 109
swine histocompatibility system 109
swine, miniature 243
Swiss and Danish swine breeds, SLA in 109
two-dimensional electrophoresis 9
